INVASIVE SPECIES NOT RECOMMENDED in VMHB LANDSCAPE PLANS

The following list of plants are considered possibly invasive for this site and, therefore, acknowledged to be unacceptable to be included in landscape plans. This information is to be used as a guide for all Substantial Landscape Modifications, in conjunction with agreed landscape requirements and landscape policies, adopted in 2011. Some exceptions for PGA's are noted in **BOLD**. More species may be added to this list. If you have previously planted any species on this list, removal is recommended. Thank you!
